

## *RESIDENT INFORMATION SHEET*

### *AIR FILTERS FOR HOUSE*

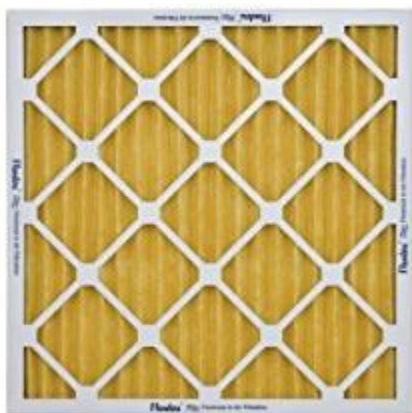

- 2 different locations
  - 2 different sizes
  - 2 different frequencies to change them
  - Helpful to keep a supply handy
1. Exterior air filter
    - Located on front or back porch in ceiling
    - 10 x 10; can purchase online or via AC company
    - Change every 6 months
  2. Interior air filter (return)
    - Location in home varies, usually in a secondary hall in ceiling
    - Sizes vary, can purchase online or via AC company
    - Change filter every 12 months.

### *HEATING, VENTILATING AND AIR CONDITIONING SYSTEM*

- Twice a year (March & September), the condensate drain line for your system should be cleaned by pouring 1 cup of vinegar through it. This will clean build up that could stop up the line.
